

11th March 2020

Dear ESPRM Delegates, Dear representatives of ESPRM Individual Members,
Dear Chairs of the ESPRM SISCs,

it is with great regret that we are announcing the cancellation of the ESPRM Meeting in Jahorina.

During the last weeks an increasing number of Delegates announced their impossibility to join the meeting, because of restrictions imposed by the COVID-19 outbreak. On March, 10th the Colleagues of the Local Organizing Committee communicated with regret that their Government is imposing strict limitations in public meetings, including scientific events.

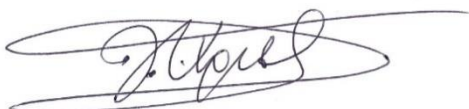

Until the last moment we hoped that the situation would improve, to allow the fruitful development of our scientific activities and as a well-deserved result of the efforts of the organizers.

We are trying to find alternative ways to continue the discussion and to make decisions on many important questions concerning the Society; we'll keep you informed as soon as possible.

We want to express the most sincere thanks to our Colleagues Gordana Stefanovski, Association of psychiatrists of Republic of Srpska and Mirsad Muftić, Association of specialist of physical and rehabilitative Medicine of Federation of Bosnia and Herzegovina for their efforts and their commitment; we really do hope that there will be future opportunities to benefit from their hospitality.

Best regards,

Nicolas Christodoulou
President

Paolo Boldrini
General Secretary
