

**ESPRM**  
European Society of  
Physical & Rehabilitation Medicine

## Agreement of Mutual Recognition

The International Society of Physical and Rehabilitation Medicine (ISPRM) is the only global agency for Physical and Rehabilitation Medicine (PRM) while the European Society for Physical and Rehabilitation Medicine (ESPRM), the European Union for Medical Specialists Physical and Rehabilitation Medicine Section and Board (UEMS-PRM-Section & Board) and the European Academy for Rehabilitation Medicine (EARM) were founded with the aim of supporting the development of PRM in Europe.

ISPRM and the European Bodies mentioned above mutually agree to cooperate and to coordinate their activities at the international, regional, and national levels. This cooperation includes maintaining frequent communication among societies and their members, discussion of topics of common interest for the organizations and the field of physical and rehabilitation medicine, carrying out common projects and the coordination of congresses and educational events. Countries that are members of the European Bodies will be encouraged to contribute to ISPRM activities through their active involvement in committees, organizational and governance bodies, and educational and scientific events.

Walter R. Frontera, MD, PhD  
President of ISPRM

Nicolas Christodoulou MD, PhD  
President ESPRM

Mauro Zampolini, MD, PhD  
President UEMS-PRM Section

Henk Stam, MD, PhD
